1RN News

There were several busier-than-average nights in May, but the total for the month was about steady with recent months.

Net participants: As we get into summer and vacation time, don't forget to take advantage of the shared net schedule sheet when looking to fill spots that you need coverage for, in addition to traditional methods. To turn on notifications when someone makes a change to the sheet, with the Google Sheet open on your computer, go to Tools – Notification Rules – Add a notification rule, check “any changes are made”, then either “daily digest” or “right away”.

Net participants should have permission to edit the sheet. You can get automatic notifications of changes.

Thank you everyone for your efforts,
