

The Granite State Amateur Radio Association is excited to extend a warm invitation to all amateur radio enthusiasts to join us for our Fall POTA Meetup! Mark your calendars for Saturday, October 18th, starting at 9 AM, as we gather at the beautiful Clough State Park (US-2645), located at 455 Clough Park Road in Weare, just on the east side of Everett Lake.

Get ready for a fantastic day where you can choose from several great locations to set up your station! You can set up in the convenient paved parking area or stroll to the picturesque picnic area by the lake, which is only about a 10-minute walk from the parking lot. For those feeling adventurous, a scenic walk across the dam leads you to the edge of Piscataquog State Forest (US-4945), where you'll find the opportunity to activate an additional POTA park!

This event promises to be more than just a gathering; it's an excellent opportunity for both seasoned POTA veterans to explore new parks, as well as for newcomers to experience the thrill of Parks On The Air firsthand. If you're curious about this wonderful hobby, we encourage you to join us, ask questions, get on the air, and even earn a unique POTA award!

The official POTA event will be taking place from October 18-19 UTC. We'll be meeting on Saturday, October 18th, from 9:00 AM to 1:00 PM EDT, but feel free to arrive early or linger longer to soak in the camaraderie.

The weather looks promising, but in the rare case of rain, we'll have a backup plan, meeting on Sunday the 19th at the same times.

Since Clough State Park has a bit more space than our previous venues, we'll be using simplex communications on 446.100 MHz to keep everyone connected.

We can't wait to see you there for a day of fun, friendship, and radio excitement! For more information, please contact Christian N1COW via our club website (<https://www.gsara.org/pota/fall-meetup>)
